INAUGURATION CEREMONY

8th Agritec Africa 2023 was hosted from 15 to 17 June 2023 at the prestigious Kenyatta International Convention Centre (KICC) in Nairobi, Kenya, this event marked another milestone in the agricultural industry. This event was sponsored by Bharat Bio East Africa Ltd, the international sales contact was IFWexpo Hiedelberg. Agritec Africa was supported by the Federal Ministry of Economic Affairs and Climate Action, Embassy of Brazil, Assocham, Serkonder and Psaima. Our information partner was exposale.net.

The exhibition was inaugurated by H.E Gabriela Martinic - Ambassador of the Argentine Republic to the Republic of Kenya, H.E Mr. Rohit Vadhvana - Deputy High Commissioner of India in Kenya, H. E. Mrs. Adriana Telles Ribeiro - Deputy High Commissioner, Embassy of Brazil in Nairobi, Hon Jonathan Mueke - Principal Secretary for State Department for Sports and The Arts, Mr Alexander Hauss - Head of International Department - VDMA Agricultural Machinery , Mr Stephen Kresse - Managing Director, IFWexpo Heidelberg GmbH and Mr Sanyal Desai - CEO Radeecal Communications. The 8th edition of Agritec Africa and the concurrent 8th DLP Expo Africa & 3rd Graittech Africa added more value to the experience of all our participants. This comprehensive approach provided attendees with a holistic and comprehensive insight into the latest advancements and trends in the wider agricultural sector.

Agritec Africa has been a prominent platform since 2014, bringing together farmers, agriculture business professionals, agronomists, biotechnologists, government officials, and all those passionate about advancing agriculture.

AGRITEC AFRICA 2023 CONFERENCE

The conference centered around the theme of "Improving Farmer's Income Through Technology" and shed light on the crucial role of farm mechanization in achieving this goal.

With a primary focus on organic farming, sustainability, commercialization and technological advancements, the conference served as a platform for industry experts, thought leaders, and stakeholders to share insights, and explore innovative approaches to enhance farmers' income through technological advancements.

Key topics discussed during the conference included 'Benefits of Organic Farming', 'Agri Businesses by Young Entrepreneurs', 'Agricultural Machinery', 'Understanding Grain Storage Issues', 'Dairy' and much more, providing attendees with valuable knowledge and actionable strategies to implement in their agricultural practices.

We extend our appreciation to all the speakers, panelists, and participants who contributed to the success of the conference, fostering meaningful discussions and driving progress in the agricultural sector.

CONFERENCE SPEAKERS

DR. BHARAT PATEL, Chairman - BBEAL
Topic-Benefits of Organic Farming

DR. MOSES OSIA MWANJE (PHD), Cereal Growers Association, Business Development and Partnerships Manager.
Topic-Understanding the Grain Storage Issues

CHARLENE RUTO, Smachs Foundation
Topic-Agri Business for Young Entrepreneur

FREDRICK OCHIENG, MDS Head of Farmer Communication Programme (Kenya and Tanzania) Biovision Africa Trust
Topic-Effective Approaches, Methodologies and Tools for Training Farmers on Agroecology; the Farmer Communication Programme Experience.

H.E. TAMALINYE KOECH, Deputy governor, Narok county
Topic-Promotion of Sustainable Agriculture

MARGARET KIBOGY, Managing Director of Kenya Dairy Board
Topic-Overview of Dairy Industry of Kenya

NATHAN KIKWAI, CEO, SMACHS Foundation
Intro to Smachs Foundation

STEPHEN MBAYA KIMWELE, Honorable Minister, County Executive Committee Membercem-Agriculture and Livestock, Kitui County Government
Topic-Climate Smart Agriculture for Sustainable food and nutrition security

DR. AHMED MOHAMED OBAID RADY, Rahma Worldwide for Aid and Development & EGYMAG Biotechnology Sustainable food and nutrition security
Topic-Revolutionizing Sustainable Agriculture: The Black Soldier Fly Industry and Its Potential for Food Security and Environmental Sustainability

Orengo's deputy impeached as MCAs accuse him of misconduct

Special Committee says it found enough evidence. Impeached deputy governor did not show up.

OLUPA DOWNSHILL, Kenya

Special Committee of the Kenya National Assembly has impeached Deputy Governor of Olupka County, William Odhiambo, for misconduct. The committee found that he had abused his position and failed to perform his duties properly.

The committee also found that Odhiambo had engaged in a conflict of interest by using his position to benefit himself and his family. He was found to have used county funds for personal expenses and to have interfered with the county's financial management.

The committee recommended that Odhiambo be removed from office and that his position be filled by a new deputy governor. The committee also recommended that the county government be held accountable for the actions of its officials.

The committee's findings were based on evidence presented by the Special Committee, which included testimony from county officials and members of the public. Odhiambo did not appear in court to defend himself.

The committee's decision is final and cannot be appealed. Odhiambo will be removed from office immediately.

Mutembei takes over as new Chuka University vice-chancellor

Prof Mutembei has been appointed as the new Vice-Chancellor of Chuka University. He will be responsible for the overall management and administration of the university.

Prof Mutembei is a highly qualified academic and administrator. He has extensive experience in higher education and has held several senior positions in universities and research institutions.

He will be working closely with the University Council and the Ministry of Education to ensure the university's continued growth and development.

Prof Mutembei's appointment is a testament to his leadership skills and his commitment to the advancement of higher education in Kenya.

Impeached Deputy Governor William Odhiambo

William Odhiambo, Deputy Governor of Olupka County, was impeached by the Kenya National Assembly. He was found guilty of misconduct and abuse of power.

The committee found that Odhiambo had used his position to engage in a conflict of interest and to misuse county funds. He was also found to have interfered with the county's financial management.

The committee recommended that Odhiambo be removed from office and that his position be filled by a new deputy governor. The committee also recommended that the county government be held accountable for the actions of its officials.

The committee's findings were based on evidence presented by the Special Committee, which included testimony from county officials and members of the public. Odhiambo did not appear in court to defend himself.

The committee's decision is final and cannot be appealed. Odhiambo will be removed from office immediately.

Overview

Ethiopia is endowed with abundant agricultural resources and has diverse agro-ecological zones. Agriculture is the mainstay of the economy. The Government of Ethiopia (GOE) has identified key priority intervention areas to increase productivity of smallholder farms and expand large-scale commercial farms. Under the current administration, the GOE has renewed its emphasis to develop the agriculture sector, ensure food security, and achieve import substitution. Among the top priorities identified by the GOE include: small and large-scale irrigation development, financing agricultural inputs, increasing productivity of crops and livestock, improving agricultural production methods using mechanization, post-harvest loss reduction, developing a research-based food security system, and natural resource management. In addition, the GOE is looking to the agro-processing sector (also a best prospect sector detailed below) as one engine to spur future economic growth. With respect to increasing productivity, the GOE, alongside its international partners, has made a number of interventions to support the development of the agriculture sector. These activities have contributed to higher yields and increased production of both crops and livestock. At the same time, to accelerate the country's agricultural development, the government established the Agricultural Transformation Institute (ATI) to address systemic bottlenecks in the agriculture sector by supporting and enhancing the capability of the Ministry of Agriculture (MOA) and other public, private, and non-governmental implementing partners.

To promote commercial-scale farming, the Ministry of Agriculture (MOA) created the Ethiopian Agricultural Land and Investment Administration Agency dedicated to overseeing any new large-scale commercial farm deals. The directorate's goal is to increase productivity, employment, technology transfer, and foreign exchange reserves by attracting investors with incentives and favorable land lease terms. Some of the land targeted for commercial development is considered marginal, prone to conflict, and/or has limited access to water. Land ownership is also a complicating factor. Therefore, investment in commercial farming requires considerable due diligence. The MOA is supporting the development of the country's livestock sector, which is one of the largest in Africa.
